

Magnonics 2023

July 30th - August 3rd

Le Touquet - Paris - Plage, France

First announcement

<https://magnonics2023.sciencesconf.org/>

& Aims and objectives:

Magnonics 2023 is the 8th international conference dedicated to fundamentals and applications of magnons.

The goal is to bring together researchers from academia, industry and national laboratories working in the fields of magnetic materials, classical and quantum magnonic devices, nanomagnetism and spintronics in order to exchange ideas and forge collaborations in the field of magnonics.

& Dates and location:

The meeting will take place in Le Touquet-Paris-Plage, from July 30th to August 3rd, 2023. The location is a beach resort located 250km north from Paris, which can easily be reached by train. The conference will be hosted in the Grand Hôtel du Touquet.

Abstract submission will be open on January 30th 2023.

& Scientific committee:

Andrei Chumak (U. of Wien),
Sergej Demokritov (U. of Münster),
Benedetta Flebus (Boston College),
Olena Gomonay (JGU Mainz),
Dirk Grundler (EPF Lausanne),
Ilya Krivorotov (U.C. Irvine),

YoshiChika Otani (U. of Tokyo),
Philipp Pirro (T.U. Kaiserslautern),
Tatiana Rappoport (U. of Rio de J.),
Caroline Ross (MIT),
Katrin Schultheiß (HZDR Dresden),
Silvia Tacchi (IOM Perugia).

& Organizing committee:

Ursula Ebels (SPINTEC),
Madjid Anane (UMφ CNRS THALES),

with the participation of
Matthieu Bailleul (IPCMS),
Grégoire de Loubens (SPEC),
Olivier Klein (SPINTEC).
